

**PAETEC EMAIL SCANNING SERVICES**

<b>FEATURE</b>	<b>BENEFIT</b>
Most Effective Anti-Spam Filtering Solution	Saves you the most resources (bandwidth, storage, productivity) without interrupting normal commercial email (false/positives)
Internet Level Scanning	Saves bandwidth and email processing and delivery cycles by not allowing SPAM near your network
No Hardware or Software Required	No associated licensing, leasing, hardware, or system administration costs
Complete Reporting Available Through a Customer Only Extranet	Capability to see general email statistics and associated savings
Scans Inbound and Outbound Email	Protects your assets from inbound threats, but eliminates potentially embarrassing situations
Rapid Updates	Insulates against threats as they are discovered/released
A Robust, Redundant Layer in Front of Your Mail System	Insulates your mail system against outages and decreases external visibility of outages
Allows Active Enforcement of "Acceptable Use Policies"	Provides a defense position for harassment lawsuits against your organization
